Because...through the responsible development of innovative and sustainable building products, **CertainTeed** has helped shape the building products industry for more than 100 years.

As a subsidiary of Saint-Gobain, the world's largest building products company, **CertainTeed is North America's leading brand of exterior and interior building products.**

So whether you have a residential or commercial project, you can turn to CertainTeed with confidence.

### Exceptional Value

Consistently ranked #1 in building industry surveys, a leading consumer magazine most recently rated Landmark® as a **Best Buy** for the second consecutive time.

### Superior Technology

We use the highest quality raw materials that must meet stringent specifications and that makes for better

roofs — **not to mention lower life-cycle costs.**

Our Landmark products are heavier by design than our major competitors' products.

We believe that additional shingle weight translates to greater durability.

### Lasting Beauty

CertainTeed offers rich, contrasting color blends that provide attractive, dramatic roofs unsurpassed in the industry. CertainTeed's patented **Certa-Blender™** technology is the most advanced in the industry when it comes to producing complex color patterns.

CertainTeed's patented **Precision Color Technology System** is used to create Highland Slate®, which replicates the true look of blended slate with precise accuracy. CertainTeed was also the first to develop a patented technology that produces **solar reflective** granules with deep and vibrant color blends.

CertainTeed's exclusive **StreakFighter®** warranty, protects your roof from streaking caused by airborne algae which adversely affects the overall appearance of your roof.

CertainTeed warrants that with StreakFighter, shingles will remain free from blue-green algae during the first 10 or 15 years (depending on the product) and will pay, **without proration**, the reasonable cost to replace or clean the affected shingles.

### Peace of Mind Complete Coverage

CertainTeed's enhanced lifetime limited warranty protects against **ANY** manufacturing defects, not just those resulting in leaks.

All of CertainTeed's shingle products are covered by standard SureStart® protection. CertainTeed, at no charge, will repair or replace any shingles proven to be defective during the applicable SureStart period. Our coverage for most lifetime products includes replacement material and labor, as well as tear-off and disposal, which is unique in the industry. In addition, all warranties are transferable without written notice and free of charge.

### One Source for the Completed Job

CertainTeed offers the products needed to complete the entire roof system. **The Integrity Roof System™** uses these products together to provide maximum performance. WinterGuard® is a superior waterproofing underlayment that prevents leaks caused by ice dams and wind-driven rain. Roofers' Select®, a high-performance underlayment, is available as a secondary barrier against leaks for the entire roof. And, starter course and hip and ridge cap shingles complete the roof.

CertainTeed offers a wide selection of high-quality roofing products, including Flintlastic® self-adhering membranes, for any low-slope roof such as porches and additions. Available in a wide range of colors to complement the most popular CertainTeed shingle colors.

### Consistent, Quality and Performance

With roofing plants located throughout the country, using only the highest quality raw materials in manufacturing, all CertainTeed shingles are known for **excellence in design and product quality.**

CertainTeed offers 30 styles of fiber glass shingles that are independently tested and certified by **Underwriters Laboratories®.**

# Because

The testing of raw materials and finished products are critically important to ensure the quality of shingles produced. CertainTeed's R&D team has very stringent specifications for the raw materials used to produce shingles.

Utilizing state of the art technology, CertainTeed continually monitors the manufacturing process and tests finished products to ensure they meet our quality requirements.

#### CertainTeed products comply with the following industry standards for:

**Fire Resistance:** UL Class A; UL certified to meet ASTM D3018 Type 1

**Wind Resistance:** UL certified to meet ASTM D3018 Type 1; ASTM D3161, Class F, 110 mph wind resistance

**Tear Resistance:** UL certified to meet ASTM D3462; CSA standard A123.5

**Wind Driven Rain Resistance:** Miami-Dade product control acceptance Quality Standards: ICC-ES-ESR-1389

#### Green and Growing

Our roofing manufacturing facilities recycle close to 90% of the production waste into asphalt materials used for the construction of roads. We also integrate recycled content into many of our packaging needs including corrugated rolls and kraft paper.
